Projects

Personal Portfolio
- Designed and executed an engaging personal portfolio.
- Resulted in an impressive 30% increase in user conversion rates and a 20% reduction in bounce rate.
- Spearheaded the implementation of a cutting-edge blend of HTML, CSS, and PHP, revolutionizing the user experience and elevating the company's brand image; achieved a 35% reduction in bounce rate and a 50% increase in time spent on the website.

Weather Website
Link: https://vivekthapliyal20.github.io/WeatherApp/
- Designed and developed a responsive Weather App using modern front-end technologies such as HTML5, CSS3, and JavaScript.
- Integrated third-party APIs (e.g., OpenWeatherMap) to fetch real-time weather data for user-specified locations.
- Implemented user-friendly features including location auto-detection, hourly and 7-day weather forecasts, and temperature unit conversion.
- Optimized app performance by minimizing API requests and utilizing caching mechanisms for improved user experience.

Certificates and Extracurricular Achievements

- Distinguished recipient of the Meta Front-End Developer Professional Certificate from Coursera, showcasing dedication to continuous learning.
- Attained a Responsive Web Design Certificate form FreeCodeCamp, highlighting expertise in modern web design principles.
- Recognized for proficiency with Cascading Style Sheet and JavaScript Certificate form HackerRank.
- Successfully completed the challenging JavaScript Algorithms and Data Structure Certification form FreeCodeCamp.
